

NIMIT RAJ

Greater Noida, Uttar Pradesh, India
nimitraj16@gmail.com | +91 8077302827 | [LinkedIn](#)

PROFESSIONAL SUMMARY

Aspiring Full-Stack Developer with hands-on experience building and deploying web applications using HTML, CSS, JavaScript, Node.js, and MongoDB. Passionate about solving real-world problems through technology and continuously learning new tools and frameworks.

EDUCATION

Galgotias University — B.Tech, Computer Science Engineering

CGPA: 7.07/10 | June 2023 – August 2027 | Greater Noida, India

Gyandeeep Public School — Senior Secondary (12th)

Percentage: 68% | May 2021 – June 2023 | Seohara, Bijnor

SKILLS SUMMARY

- Programming Languages: Java (Core), Python
- Web Technologies: HTML, CSS, JavaScript, Node.js, Express.js, REST APIs, Socket.io
- Databases: MySQL, SQLite (Basic), MongoDB
- Core Concepts: DSA, OOPs, Operating Systems, Computer Networks, DBMS
- Soft Skills: Problem-Solving, Teamwork, Communication, Time Management, Analytical Thinking

EXPERIENCE

Google Virtual Internship | EduSkills Foundation

July 2025 – September 2025

- Completed a virtual internship focused on cloud and digital technologies.
- Applied problem-solving skills to practical technical assignments.
- Strengthened technical knowledge through industry-based learning modules.

PROJECTS

ServeMore: Food Sharing Platform | HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Socket.io | May 2026 | [Live Demo](#) | [GitHub](#)

- Built a full-stack food rescue platform to share surplus event food with nearby people in real time.
- Implemented real-time quantity updates with Socket.io, RESTful APIs with Express.js, and MongoDB Atlas for persistent storage.
- Added image upload (Multer), expiry countdown timer, search/filter, dark mode, and mobile-responsive design.
- Deployed live on Render.com with MongoDB Atlas as cloud database.

FoodLoop: Food Waste Reduction Web App | HTML, CSS, JavaScript | December 2024

- Built a responsive web application to connect food donors, NGOs, and recipients.
- Designed an interactive UI for food listing and request management with mobile-friendly frontend.

CERTIFICATIONS

Certificate of Completion — Java For Beginners (Guvi) | November 2024

- Completed foundational Java course covering OOPs, data types, control structures, and exception handling.

Award of Final Exam Completion — Oracle Academy | November 2024

- Completed Oracle Academy exam covering SQL, relational database design, data modeling, and programming logic.

ADDITIONAL INFORMATION

Languages: English, Hindi | Interests: Web Development, Problem Solving, Learning New Technologies
